ABOUT ME

I am a skilled and passionate 3D Artist with expertise in creating realistic walkthroughs and a solid understanding of graphic and website design. I have experience working on diverse projects and can quickly grasp a project's mission, vision, and values. I started as a Jr. 3D Modeling Artist and expanded my skills by learning graphic design and website development. Now, I am seeking a suitable position to advance my career while working with talented individuals.

EXPERIENCES

Lead Designer

2020 - Current

Vexhibitions , UK

As a lead designer, my main responsibilities include creating 3D architectural visualizations, designing 3D products and animating them, as well as developing websites. I am currently working on a one-year contract for a specific project, which has been extended and I am still in this position

Interactive Designer

2020 -2022

Xporium, India

During the pandemic, many exhibitions moved online. I worked on a contract basis at Xporium, a company that provides online solutions for events and exhibitions. My main task was to create an interactive environment for the events and exhibitions.

Booth Designer

2013 - 2020

The Creatif Wagon, India

As a booth designer, my primary responsibility was to create a 3D design based on client specifications and produce production drawings after design approval, as well as graphic design for the booth. Through my work with this organization, I gained valuable experience in the exhibition industry, from concept to execution. However, the pandemic had a severe impact on the exhibition industry, which ultimately led to my decision to switch jobs.

3D Modeler

2012-2013

Prism Creations, India

This was a valuable learning experience for me as a beginner, and I am grateful for the knowledge I gained at this company. My primary task was to convert CAD drawings into 3D models.

EDUCATION

Webtech Computer

2020

Website Development

During the pandemic of 2020, I wanted to learn something new. Since I had limited knowledge of HTML and CSS from my previous course, I decided to learn website development and completed a course in WordPress website development.

Mumbai University

2015

B.com (correspondence)

After starting my job on the basis of my diploma, I decided to pursue a degree through distance education. I obtained my degree in 2015 and continued to work in the field of 3D as I gained experience in that field

R.A.J Computer

2012

3D And Graphic Designing

I completed a diploma in Graphic and 3D Design, which included basic HTML and CSS. 3D Designing has become my passion and motivation for a future career path
